

Company Fact Sheet

Comet Plasma Control Technologies

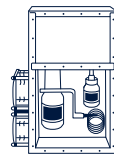

At a glance

We empower new technologies

As a leader in plasma control we pave the way for innovative semiconductor process technologies. Technologies which revolutionize not only communication, information, mobility and technological progress, but also ensure the sustainable future of the planet and the well-being of our society.

Member of the Comet Group.

Our solutions

Impedance matching networks

RF generators

Vacuum capacitors

Key financials

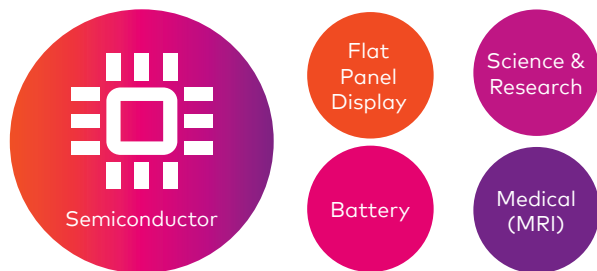

Comet Plasma Control Technologies

CHF m	2021
Net sales	306.1
EBITDA	80.5
Number of employees	826

Comet Group

CHF m	2021
Net sales	513.7
EBITDA	102.7
Number of employees	1'571

Industry segments

What we stand for

- Supporting all top tier semiconductor OEMs
- Most experienced RF delivery system designers
- Design centers and manufacturing in Europe, USA & Asia
- Market leader in relevant markets
- Only company worldwide offering integrated competencies

Global footprint

We are a Swiss based technology company with a strong global presence in: Switzerland, Germany, United States, China, South Korea, Malaysia and Taiwan

Led by experience. Driven by curiosity.
